# 3rd IPDC

COMING SOON (JAN - FEB 2022)

Ages: 10 - 18

Hosted by See Change Education, this international competition will involve delegates from **the Greater Bay Area and the Belt & Road regions**. The online event is an exciting opportunity for young people to compete and meet with peers from around the world at a time where physical interactions are limited.

The tournament is part of the American Parliamentary Debate Association circuit and features three categories: Upper Primary, Lower Secondary (Middle School), and Higher Secondary (High School), with two leagues in each category, novelist and advanced. Everyone – whether a beginner or an experienced debater – is welcome to participate!

# SPEECH & DEBATE CAMP

EARLY BIRD: 15% OFF  
DEADLINE: NOV 17 2021

## Choose a Week

Day: Tue, Wed, Thur (3 Days)  
Camp 1: 21/12 - 23/12  
Camp 2: 28/12 - 30/12

Time: 0930 - 1130  
1500 - 1700

Price: \$2640

**Secondary** (Age 13 +)

Time: 1500 - 1700

Price: \$3300

# About Speech & Debate Camp

Wouldn't it be great if your children could learn more about the world, while gaining confidence and critical thinking skills?

At See Change, we adopt a highly-interactive approach to engage students to see the world with a critical eye and then to speak persuasively. Through our proprietary program and interdisciplinary approach, students will gain critical 21st century skills:

- problem solving skills
- critical thinking skills
- logical reasoning

Each lesson consists of the following, all conducted in a fun and engaging way:

- short drills targeted at specific skills and techniques, such as elocution, contention building, rebuttal and weighing
- guided mock debates
- brainstorming sessions with peers
- technical and analytical exercises

Topics of discussion include policy, technology, environmental issues, science, and history and culture, etc. Students will be empowered in academics and argumentative essay-writing, and will learn to engage with the world around them in a meaningful way.

# MODEL UN DEBATE CAMP

## Schedule

Date:	Tue, Wed, Thur (3 Days)
Time:	0930-1130 or 1500-1700
Age:	10 - 12   12 -14 (other ages subject to approval)
Price:	\$3300

Each camp focuses on a different topic. Students are encouraged to attend multiple camps!

Camp 1:	21/12 - 23/12
Camp 2:	28/12 - 30/12

EARLY BIRD: 15% OFF  
DEADLINE: NOV 17 2021

# About 3-Day Model UN Camp

Learn about global issues, build leadership skills, develop life skills in negotiation and persuasion, and collaborate with students from other schools and countries in our 3-day Model UN program!

Our Model UN Camp is a unique, engaging program that allows students to travel the world by exploring pertinent global issues. Through participation in Model UN simulations, students will be empowered to explore the world, analyze situations from various perspectives, and tackle controversial topics in **Global Health, Human Rights, Economics & Trade, Women in Leadership, and Climate Change**, while building on persuasive communication and advanced public speaking. Since each week focuses on a different topic, students are encouraged to attend multiple camps!

Through the 3-day camp, students will:

- Learn about various topics from experienced coaches with a proven track record
- Learn how to write resolutions
- Participate in public speaking, negotiation and team-building activities
- Role-play as a delegate / diplomat during Model UN simulations

## Model UN Primer Lecture

If you want to know more about Model UN, please join our special lecture by a Model UN veteran who will take you through the inner workings and functions of the different United Nations councils, and how a model UN works! Our special lecture will give you the background and exposure necessary to succeed in Model UN as a first timer, and even as an experienced council member!

Price: USD 20 per people

Date: 6th or 13th November, 2021 (Sat)

Time: 5pm – 5:45pm (HKT)

Age: 11+

# NATURE

# IMMERSION

# CAMP

ENHANCE CHILDREN'S  
EMOTIONAL & PHYSICAL HEALTH

Forage into the woods. Nurture your own ant colony and observe the 4 life cycles from eggs, larvae, baby ants, to worker ants.

Take a walk through the stream and set up your own ant picnic, and see how worker ants care for their own queen ant. You may even find surprises, from real giant spiders, pink caterpillars, and even baby crabs in their mud burrows.

You will see how physics, biology, and chemistry all come into play in mother nature, and how living things in our ecosystems thrive in teamwork and collaboration.

Through hands-on experiments and field trips, you will be immersed in the world of physics, biology, and chemistry to kick-start your journey to becoming a scientist.

Click to watch the highlights of last nature camp.

Photos taken from See Change Summer Camp in 2021.

Students will meet to build key knowledge blocks necessary for their field work. They will apply what they have learned and make their own observations and scientific inquiries in the nature, test their hypothesis and develop observational and reasoning skills. Students will also develop deeper understanding of sciences at work in nature, and how our human existence is intricately tied to the healthy balance of our ecosystem.

Bring your own ant colony kit home, and share the magic of science with friends and families. Come join us in our unique Nature Immersion Camp to ignite the future scientist in you.

### Learning Focus

Day 1 - Learn about common species of ants in Hong Kong and other insects in a natural environment

Day 2 - Study how ants navigate and transport food and relate it to orienteering and teamwork

Day 3 - Study how ants communicate with pheromones and acoustics and relate it to non-verbal communication among human beings

Day 4 & 5 - Apply logic and critical thinking developed thus far to make field observations and contribute to global database

# TIMETABLE

There are plenty of fun autumn activities!

- Scavenger Bug Hunt
- Ant Bait Observation
- Navigation in Nature
- Back-to-back Drawing
- Ant Picnic
- Who Will Win the Race
- Maps & Orientation

## Camp 1

Time	Day 1 -5
0930	Arrive at Site: Team Building Activity 1
1000	Lecture - Knowledge Blocks
1030	Field Study 1
1130	Lunch Break
1200	Team Building Activity 2 & Field Study 2
1300	Discussion & Reflection
1330	Depart from Site

Date: 20/12 - 24/12 (5 days)

Time: 0930 - 1330

Age: 9 - 11

Price: \$7000 plus \$500 ant colony starter kit

Children should bring their own water, snacks or packed lunch.

## Camp 2

Time	Day 1 - 4
0930	Arrive at Site: Team Building Activity
1000	Field Trip/ Field Study
1100	Games & Drills; Discussion & Reflection
1130	Depart from Site

Date: 28/12 - 31/12 (4 days)

Time: 0930 - 1130

Age: 6 - 8

Price: \$3000 plus \$500 ant colony starter kit
